DETAILED ACTION

Response to Amendment

1. The amendment filed 8/20/2004 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: "another variation of the second embodiment is shown in FIG. IC. In this arrangement, the magnetic center line, that is, the line between the north and south poles of the spindle magnetic unit, is lower than the magnetic center line of the stator magnetic unit. As a result, force is generated in the downward direction, causing an axial prestressing force to the spindle. Thus, the friction between the spindle and the loading section 70 is increased so that the spindle is less likely to move transversely along the surface of the loading section 70".

Applicant is required to cancel the new matter in the reply to this Office Action.

2. Since the reply filed on 8/20/2004 appears to be *bona fide*, applicant is given a TIME PERIOD of **ONE (1) MONTH** or **THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to submit an amendment in compliance with 35 U.S.C. 132 in order to avoid abandonment.
